

Welcome to Science Fest 2024

Hello, everyone! I am Rick Van Kooten, Executive Dean of the College of Arts and Sciences, and like you, I am so looking forward to this fall's Science Fest, taking place on the Indiana University Bloomington campus on

It is easy to explore your options and plan your visit by taking a look at the Science Fest website, where you'll find many resources for ongoing science education, too. Keep in mind that parking is free for Science Fest, and there will be plenty of volunteers on hand to help you find your way from place to place as you experience all we have to offer, at your own pace and according to what interests you most.

Science Fest has evolved over the years to be one of our finest College traditions, a chance to share the expertise of our faculty with young people, igniting their interest in the sciences with hands-on activities that spark joy and wonder. I hope you will join us for a wonderful day to remember, one that proves to be both fun and formative. We believe that science education belongs to everyone and enriches our experience of the world.

With best wishes for a wonderful day!

Rick Van Kooten
