

**Centers for Disease Control and Prevention** New CDC Museum exhibit on | Places & Spaces: Mapping Science at the David J. Sencer CDC Museum, focuses on data visualization and how it can help the public understand health threats. The exhibit on includes science maps and visualization tools ...more

#### Similar Geographic Patterns of Health Disparities, Risk Factors, and Socio-Demographic Conditions

These maps highlight the similar geographic patterns of many health disparities, risk factors, and socio-demographic conditions in the U.S. Understanding the geographic patterns is the first step to understanding the underlying causes.
