We Have Exciting Speakers Lined Up for the 5th Annual Indy Big Data Conference.

Come see these incredible speakers present on technology's latest trends!

PRESENTED BY

RADcube is a technology consulting company providing technology solutions and implementation services. Our focus is on Enterprise Integration, Big Data and Enterprise Applications Solutions. We utilize state of the art tools, technologies and subject matter expertise to create breakthrough business impacts by targeting innovation opportunities and by managing change effectively. We are technology agnostic and we have developed strategic partnerships with multiple technologies like Qlik, MuleSoft, and Hortonworks to name a few. We provide industry-specific technology services in Healthcare and Life Sciences, Insurance, Banking, Construction, Manufacturing, Government, Finance, Transportation and Logistics. We emphasize rapid innovation with a targeted approach, strong project management processes, a global presence for development and delivery and a keen focus on user experience. data is a maze of opportunity with as many twists and turns as there are new big data technologies. This year's speakers will present on these topics and many more as they help you to navigate this maze and cash in on your next big data opportunity.

HOSTED BY

Conference Ventures is more than just a Conference Planning Company, we are thought-leaders in the conference space. We forecast the need to bring businesses and people together through the experience that only a conference can deliver. We identify the right conference goals and objectives and satisfy them at the right time and in the right venue. Conference Ventures is also unique, in that we are able to handle your conference needs from A-Z, tailored to fit your specialty, all while bringing back the lost art of customer service. Conference Ventures is pleased to present the 2015, 2016 and 2017 Indy Big Data Conferences. Visit us at conferenceventures.com
