## Atlas of Science, Visualizing What We Know (via @flowingdata @MITPress)

<http://flowingdata.com/2010/11/03/review-atlas-of-science-visualizing-what-we-know/>

Katy Boerner, professor of information science, catalogs visualization and science in *Atlas of Science: Visualizing What We Know*.

**MIT Press:** <http://scimaps.org/atlas/>

The MIT web page serves as an interactive companion to the printed atlas, with links to images, maps, and bibliographic sources.
