

# Visualization Exhibit and Events

JANUARY 15, 2015 | ANGELA ZOSS | LEAVE A COMMENT

This

semester, Duke is proud to host the *Places & Spaces: Mapping Science* exhibit, visiting from Indiana University. *Places & Spaces* is a 10-year effort by [Dr. Katy Börner](#) (director of the [Cyberinfrastructure for Network Science Center](#)) to bring focus to visualization as a medium of scholarly communication.

The exhibit includes [100 maps](#) from various disciplines and cultures and highlights myriad visualization techniques that have been used to communicate science to a broader public. The maps are divided among three spaces on campus: [The Edge](#) (newly opened on the first floor of Bostock Library), [Smith Warehouse](#) (on the second floor of Bay 11), and [Gross Hall](#) (on the third floor).

To celebrate the opening, Dr. Börner will visit Duke on January 21st and 22nd. She will give a [keynote presentation](#) on **Wednesday, January 21, at 4pm, in the Edge**. A reception will follow.

Additional events next week and throughout the semester will celebrate the exhibit and promote ongoing visualization work at Duke. All events are open to the public!

## Upcoming events

*Wednesday, January 21*

- [Digital Scholarship Series opening session – Manifest Data](#), by the S-1 lab  
3-4pm in the Edge
- [Opening keynote by the exhibit's curator, Dr. Katy Börner](#), and reception  
4-6pm in the Edge

*Thursday, January 22*

- [Screening of Dr Börner's film \*Humanexus\*](#)  
12-1pm in 266 Smith Warehouse Bay 10

*Friday, January 23*

- [Uncharted: Mapping the Spaces Between Disciplines](#) (half-day conference)  
9:45am-3pm in 217 Perkins
- [Visualization Friday Forum – Exhibit tour](#) in the Edge  
12-1pm in the Edge

More information about the exhibit and related events is available at:
