

## Places & Spaces at University of Leipzig

Exhibit Dates: July 13-30, 2018

### Places & Spaces: Mapping Science - Exhibition of science maps

This exhibition shows 100 maps showing the structure and development of science and technology. Interactive maps let visitors explore the complexities, values, and beauty of science and technology. The maps are used to make data-based decisions in science, industry, and politics.

The images and German translations for all 100 cards are available on the Internet at <http://scimaps.org>.

The exhibition can be seen until July 30, 2018 as part of the [ESU in Digital Humanities](#) on the 2nd floor of the lecture hall building of the University of Leipzig.

Everyone is welcome, even with families.

Beginning July 13, 2018, University of Leipzig will feature the *Places & Spaces: Mapping Science* exhibition as an integral part of [The European Summer University in Digital Humanities](#).

The *Places & Spaces* exhibition showcases 100 visualization of complex data in innovative and beautiful formats, using groundbreaking methods for making sense of large streams of data. Each year new visualizations are added, culled from international and interdisciplinary submissions.

## Venue:

Lecture hall building, 2nd floor  
University Leipzig  
Augustusplatz  
04109 Leipzig

## Acknowledgments:

Funding for *Places & Spaces* exhibit in Leipzig is provided by [The European Summer University in Digital Humanities](#), [INSPIRATA - Zentrum für Mathematisch-Naturwissenschaftliche Bildung eV](#), the National Science Foundation under grants IIS-0238261, CHE-0524661, IIS-0534909, and IIS-0715303; the James S. McDonnell Foundation; and Thomson Reuters. Additional funding comes from the [Cyber Infrastructure for Network Science Center](#), University Information Technology Services, and the School of Informatics and Computing — all three located at Indiana University. Some of the data used to generate science maps is from Thomson Reuters and Elsevier. Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author (s) and do not necessarily reflect the views of the National Science Foundation or other sponsors.
