

 **Masks are required** in public spaces of the 1st and 2nd Floor of the Hesburgh Library from 7:00am – 8:00pm for all individuals, regardless of vaccination status.  
Note: All visitors to campus are expected to wear masks throughout the Hesburgh Library at all times.

## Lecture: Maps & Macroscopes

 Friday, September 24, 2021

 3:30pm – 4:30pm

 Virtual via Zoom

Join us for the virtual opening lecture for the upcoming [\*Places and Spaces: Mapping Science Exhibition\*](#). Empowering anyone to render data into actionable insights.

"Maps & Macroscopes" is presented by [Katy Borner](#), the Victor H. Yngve Distinguished Professor of Engineering & Information Science, Department of Information & library Science at Indiana University.

Professor Borner's additional titles include:

- Adjunct Professor at the School of Informatics and Computing
- Adjunct Professor at the Department of Statistics in the College of Arts and Sciences
- Core Faculty of Cognitive Science
- Founding Director of the Cyberinfrastructure for Network Science Center
- Research Affiliate of the Biocomplexity Institute
- Member of the Advanced Visualization Laboratory
- Fellow of the Center for Research on Learning and Technology

### About the Places & Spaces Exhibition

Drawing from across cultures and across scholarly disciplines, [\*Places & Spaces: Mapping Science\*](#) demonstrates the power of maps to address vital questions about the contours and content of human knowledge.

An interdisciplinary and international advisory board chose each one of the works in the Places & Spaces: Mapping Science exhibit as an outstanding example of how visualization can bring patterns in scientific data into focus.

The exhibit is curated by the Cyberinfrastructure for Network Science Center at Indiana University. The exhibit has been on display at over 382 venues in 28 countries on 6 continents. It showcases the work of 248 mapmakers that hail from 17 different countries.

Open to Undergraduates, Graduate Students, Postdocs, Faculty, Staff.
