Description

As every year, the Pyladies team will organize a regional venue for the prestigious WiDS 2020 event (Women in Data Science, https://www.widsconference.org).
WIDS aims to inspire and educate data scientists around the world, regardless of gender, and to support women in the field. This annual one-day technical conference provides an opportunity to learn about the latest research and applications related to information science in a wide range of domains. All genders are invited to participate in the conference, which features outstanding women doing exceptional work.

The event is completely free.
In order to access the day of the event, it is necessary to REGISTER in advance in the following form (limited space): https://forms.gle/wBpvFWagWhRgREP67

Workshop registration (limited space):
